Earth Tribe Mambeadero 17:00 - 21:00

In the Mambeadero we enter a circle where, through the presence of each of its participants and the art of communication, we allow ourselves to unveil a question, a question that is important to solve for this group through the inner wisdom of each one of its members. In the circle of words we are accompanied by coca leaf medicine, which helps our words to be sweet, feminine, and Tobacco Ambira, which gives us the clear and concrete word of masculine energy, in order to achieve a center in the may our words be "sweetly firm, firmly sweet." This is an art practiced by the peoples of the hummingbird territory, people of coca and tobacco words, on this occasion we will be accompanied by the Mhuysqas, guardians of the word that zewa achieves, agreements between the people. Therapeutic effect: - Produces insight. - Promotes self-knowledge and recognition of the possibility of learning through one's own experiences and those of others. - Teaches effective communication techniques.

Every mambeadero has another focus. We start a circle with deepening our understanding about what is a mambeadero and talk about coca and tobacco. Later we share the medicine of chicha and speak about communitybuilding.

Kambo 10:00

To deepen the cleaning of body mind and spirit, we work with the Water Medicine of the Jungle that is Kambo.

The venom of this Amazon frog serves to clean "the panema", the aura of negativity that we generate through stress and the burden of toxins,

negative thoughts and feelings that we accumulate throughout our lives and through ingestion of polluting substances, which generate a vibration that attracts conflicts and difficulties to our lives. Through its highly purgative effect, Kambo purifies the aura and generates a vibration that opens our way to the positive. Besides being excellent to strengthen the immune system. To apply it, a special rod or liana that also comes from the Amazon is used, and they light it and with the small ember that is formed, they burn the first layer of the skin. This is removed and this gel from the frog's sweat is placed there in small amounts subcutaneously. Therapeutic effect: - Strengthens the immune and lymphatic system. - Cleanses the blood, and the internal organs (bladder, stomach, intestine). - Cleanses the aura of psychological aggregates and negative projections. Duration: 2 to 3 hours.

Traditional Yagé/ Ayahuasca Ceremony

In the traditional indigenous medicine of several people of Colombia, Amazonia of Ecuador and Peru, Bolivia and Brazil they elaborate the potion known as ayahuasca or Yage, a concoction with entheogenic properties in the trunk of banisteriopsis cajunapiés component leaves of chacruna (*Psychotria viridis*) or *Diplopterys cabrerana*. At the physiological level, Yage produces a purgative effect that manifests itself mainly through diarrhea and vomiting, this effect is known as "relief", due to its powerful purifying effect. In Yage, what people release through the body are not only harmful toxins for the body, they are also the mental and emotional aggregates with which certain areas of the body have been loaded, that is, the psychosomatic origin of the psychosomatic. At the psychological level, the Yage allows unlocking traumatic information that is stored in the unconscious. It is a combination of rituals, lines of processes and environments for the production of the catharsis and the later realization (realization) to go safely in therapeutics. In this it is called "the pint", or the Yage's visionary effect.

Therapeutic effect:

- Understanding of the psychosomatic origin of diseases and difficulties in relationships with the partner, family, work and with the environment.
- Unlocks traumatic information that is stored in the unconscious.
- Produce emotional catharsis.
- Purges and detoxifies the body of toxins, and pollutants present in the water, food and air we breathe, a through body liquid (vomit, urine, and feces)

Retreat Portugal

We would like to invite you to a very special RETREAT "Return to the origin" on our territory Z'amora in Portugal.

It is a co-creation between South America and Europe, to build a bridge, to share the wisdom of nature, of the water, of this elder and ourselves. For those who feel the call to step fully into pure Source energy.

These days are full of teachings, sharings, silence, sound healings and also a sacred cacao and mambeadero ceremony. These days we receive Mamo Francisco, elder of the Wiwa tribe from Colombia, together with Jefry and Fee, Guardians of the community Zaku Ye in Colombia. They are all from the Kolibri tribe, the totem of the heart.

The Mamo also makes a tour through the Netherlands with Fee and Jefry, but for a real deepening of your Origin you can join us for several days in our beautiful, quiet territory in nature.

OFF GRID

We live off-grid and are sleeping in Sahara Bell tents, of course you can bring a small tent. You arrive on September the 4th somewhere during the day, this is a day to land on the territory, get to know each other and also to relax, so that you can receive the teachings the next day.

We will start the 5th until the 8th, and we will close the retreat the 9th after lunch. We provide sleeping places in tents and healthy, vegetarian food 3 times a day. Every day there are circles, sometimes all together, sometimes the men and women separately who then come back together.

ARRIVAL & PRICE

Arrival September the 4th, departure the 9th or the 10th.

The contribution is 444 euro including shelter, food and all circles. This amount reflects the expenses in terms of food, travel and airline tickets, sacred cacao, mambeadero and something for the Wiwa community. If you feel that you want to give something extra afterwards because it heals or remember a lot in your life, that is welcome.

If you have any problem with buying a ticket at this moment, it is possible to pay in 2 or 3 installments after consultation with Aluna Omnium. The amount must be paid completely before the 1th of Septembre.

For children from 0-9 years old the price is 55 euro.

For youngsters from 10-17 years old, the price is 222 euro.

For children there is no ticketshop, contact Aluna and she will arrange it.

TRAVEL

Your trip to Z'amora is exclusive!

It is the cheapest to fly from Eindhoven to Lisbon or Porto. From Lisbon or Porto you can travel by bus or train to Castelo Branco, for just under 20 euros. From Lisbon, the bus journey is considerably shorter! Book on time for cheaper flights. If you want to drive yourself, the distance is around 2100 km from the Netherlands. We will pick you up in Castelo Branco, from there it is another 40 minutes to our territory.

RETREAT PORTUGAL

€444

04/09 – 08/09

TEST

If you fly you need a negative Pcr/antigen test, a recovery or vcxx required. In the Netherlands there is a test with travel paper, without the nosewab. If you need this information I can send it to you. For the way back to the Netherlands nothing is needed.

We always drive by car and we never did a test, but officially you need one to enter Portugal, so that decision is up to your own feeling.

Shamanic Teachings Wayra II 10:30 - 16:00

Chapaka/ Wayra

The shamanic teachings for Medicine women and men, are about ancestral tools to protect and help in ceremonies, like the Soplo (class I) and now we will deepen our knowledge about the Chakapa or Wayra comes from a Quechuan word; meaning 'shaker' or 'rattle constructed of bundled leaves'. Medicine people have a large variety of chakapa movements that create different sounds and energy waves; these movements match the icaro and healing that is being made. Part of the teachings are how to awake the Chapaka, how to work in the right safest way, how to clean and use the belonging elements of nature.

Kambo + Jurema sacred Plantceremony

Today we combine the sacred medicine of the Kambo and the Jurema.

Kambo at 9:00 in the morning

You can find the information about the Kambo in the text above.

Jurema sacred Plantceremony in the evening

Jurema -Mimosa & Syrian Rue - Also known as Anahuasca. The rue is growing in native territory and mimosa comes from africa and south america. She is known as the feminine spirit of the jungle.

The Sacred plant brew is used for medicine by deep healingprocesses, that has been used ceremonially for thousands of years, with deep respect, by various peoples as a medicine for body and mind, because of its strong cleansing, healing and visionary effect. In other words, inner senses are opened, through which deep insights are obtained and physical and mental impurities that are consciously or unconsciously stored in our pain body are cleaned. She helps you to see what needs to be seen. Ayahuasca is considered the most potent among the 'plant teachers' and therefore deserves deep respect from every user. The sacred tea is made from the two different plants. One plant (eg: Psychotria Viridis or Mimosa hostilis) contains the body's own substance demytheltriptamine or DMT. DMT is naturally produced by many plants and organisms, including humans. Our pineal gland produces DMT so that we can dream, disembodify or die. The intake of DMT therefore provides the vision-inducing effect. Because when you drink DMT, it is normally broken down again in the stomach and liver, we use a second plant (eg: Banisteriopsis Caapi or Peganum Harmala) which contains an MAO inhibitor. The MAO inhibitor thus ensures that the DMT can reach the brain and do its job.

What Plant Medicine can help you with, for example

- Personal development, awareness
- Spiritual experiences
- Life issues
- Self love
- Healing
- Unprocessed grief
- Letting go of negative beliefs
- Physical complaints
- Processing: trauma, depression, fears, PTSD
- Stress, tension, burnout
- Grieving Process
- Fear of commitment, fear of separation

Soplo de Vida - Blow of Life 13:00 - 18:00

Genezers van het medicijn pad we nodigen je uit om deel te nemen aan deze workshop over voorouderlijke leringen hoe je een beschermings- en reinigingsdrankje kunt maken dat verband houdt met je voorouders.

Deze dag zal gewijd zijn aan het leren -hoe- al je voorouderlijke kracht en kennis wakker te maken en te begrijpen hoe je hun energieën kunt oproepen om je medicijn pad te ondersteunen. Je zult zien hoe je ze 7 tot 9 generaties voor je kunt oproepen en wekken; de voorouders die genezers waren. Verbinden met je afkomst. Door ook de kracht van planten en je adem te gebruiken om (zware) reinigingen en bescherming te maken voor energetisch werk in ceremonies en je leven. Je maakt een 'huis' waar ze samen kunnen komen; in een fles met geneeskrachtige planten en alcohol. Het proces om de planten te plukken en wakker te maken is een onderdeel van deze workshop.

Dit zijn oude leringen, die afkomstig zijn van de medicijnouders uit de jungle in Colombia. De kennis zal worden overgedragen en gedeeld door Yé, hij studeerde vele jaren bij verschillende stammen en creëerde krachtige magische energetische sprays maar ook Soplos. Vandaag zullen we de Soplo maken, deze leringen zijn erg verborgen en worden niet vaak gedeeld.

Om je medicijn energetisch spiritueel werk kracht bij te zetten, bijvoorbeeld in ceremonies, heb je nu de mogelijkheid om een meester te ontmoeten die met je komt delen. In Colombia zijn meer oudsten en meesters die delen, maar in Nederland gaat veel oude voorouderlijke kennis verloren. Dus zijn missie is om dit terug te brengen naar dit land.
